

Do you regard freedom as an opportunity to do something new? Do you say what you think, and do what you say?
Does success drive you to take on new challenges and overcome them with passion?
Then Rodenstock is just the place for you!

DATA SCIENTIST R&D COATINGS (M/F/X)

Your responsibilities

- Conduction of data analyses for experimental datasets in close collaboration with team members to develop new coating designs and processes
- Development and maintenance of the data infrastructure
- Development of simulation and predictive models for coating processes, focusing on material and thin-film properties, as well as identifying optimal process parameters
- Project lead of research and development projects related to the coating and tinting of ophthalmic lenses, including project planning, risk analysis, progress tracking, and documentation
- Collaboration with interdisciplinary teams across materials science, physics, chemistry, and laboratory operations to connect experimental research with modeling and simulation activities

Your profile

- Completed studies in Data Science, Engineering, Physics or Chemistry
- Several years of professional experience as a Data Scientist
- Strong knowledge of developing, validating, and applying simulation models and databases
- Expertise in software development, for example using Python
- Business fluent in German and fluent in English
- Proficient in MS Office
- Enthusiasm for collaborating in interdisciplinary teams to develop innovative solutions
- Strong analytical thinking skills and a structured, independent approach to work
- Results-driven and communicative team player with a high degree of proactivity and a hands-on mindset

About Rodenstock

The Rodenstock Group is an international innovation leader and manufacturer of spectacle lenses in the eye health sector. This is driven by our philosophy "B.I.G. VISION FOR ALL – Biometric Intelligent Glasses" for a paradigm shift in bespoke varifocal lenses. The medical technology company, founded in 1877 and headquartered in Munich (Germany), employs around 4,100 people worldwide, maintains five central production facilities and is represented by sales offices and distribution partners in more than 85 countries. Due to the combination of German brand quality, technical innovation and global growth, you will find a wide range of work with a good deal of freedom for new ideas and your own personal development at Rodenstock.
